NOTICE OF ACCEPTANCE (NOA)

Allmet Roofing Products, Div. of Metals USA Building Products Canada, Inc.
P.O. Box 220 RR #2
Courtland, Ontario, Canada, NOJ-1EO

SCOPE:

This NOA is being issued under the applicable rules and regulations governing the use of construction materials. The documentation submitted has been reviewed and accepted by Miami-Dade County RER - Product Control Section to be used in Miami Dade County and other areas where allowed by the Authority Having Jurisdiction (AHJ).

This NOA shall not be valid after the expiration date stated below. The Miami-Dade County Product Control Section (In Miami Dade County) and/or the AHJ (in areas other than Miami Dade County) reserve the right to have this product or material tested for quality assurance purposes. If this product or material fails to perform in the accepted manner, the manufacturer will incur the expense of such testing and the AHJ may immediately revoke, modify, or suspend the use of such product or material within their jurisdiction. RER reserves the right to revoke this acceptance, if it is determined by Miami-Dade County Product Control Section that this product or material fails to meet the requirements of the applicable building code.

This product is approved as described herein, and has been designed to comply with the Florida Building Code including the High Velocity Hurricane Zone of the Florida Building Code.

DESCRIPTION: Metals USA Vented Top Row (VTR)

LABELING: Each unit shall bear a permanent label with the manufacturer's name or logo, city, state and following statement: "Miami-Dade County Product Control Approved", unless otherwise noted herein.

RENEWAL of this NOA shall be considered after a renewal application has been filed and there has been no change in the applicable building code negatively affecting the performance of this product.

TERMINATION of this NOA will occur after the expiration date or if there has been a revision or change in the materials, use, and/or manufacture of the product or process. Misuse of this NOA as an endorsement of any product, for sales, advertising or any other purposes shall automatically terminate this NOA. Failure to comply with any section of this NOA shall be cause for termination and removal of NOA.

ADVERTISEMENT: The NOA number preceded by the words Miami-Dade County, Florida, and followed by the expiration date may be displayed in advertising literature. If any portion of the NOA is displayed, then it shall be done in its entirety.

INSPECTION: A copy of this entire NOA shall be provided to the user by the manufacturer or its distributors and shall be available for inspection at the job site at the request of the Building Official.

This renews NOA# 07-0612.08 and consists of pages 1 through 4.
The submitted documentation was reviewed by Alex Tigera.

NOA No.: 12-1002.31
Expiration Date: 11/29/17
Approval Date: 11/15/12

APPROVED APPLICATIONS

Tradename:	Metals USA Vented Top Row
System Type:	Mechanical attachment of static vent over Gerard Roofing Technologies and Allmet Roofing Products Division of Metals USA Building Products Inc.
Cutout:	At ridge (see Metals USA's instructions for proper cutout placement) cut a 1" wide opening (.5" on each side of ridge) along the ridge of the roof.
Installation:	<p>Install the Gerard Roofing Technologies or Allmet Roofing Products Division of Metals USA Building Products Inc system per the product Notice of Acceptance. Attach the front panels of the last course in normal fashion and fasten the top of the panel through the pan in to the batten. Cut and bend panels at ridge to allow 1" of free air between sides.</p> <p>Position the 2 pieces of Vented Top Row (VTR) about 4-1/2" apart and chalk line for positioning over the foam closure. Secure the Vented Top Row and Angle Diverter through the foam closure and panel to the secured wood batten with screws at high portion of panel. Use (1) #10 x 1-1/2" stainless steel screw fastener at each panel crest.</p> <p>Stitch screw the 2 pieces of Vented Top Row together with 1 screw per length side.</p> <p>Fasten barrel cap trim to Vented Top Row using #10 x 1-1/2" Stainless Steel Screws.</p> <p>See Details herein.</p>
Net Free Area:	Refer to manufacturers published literature.

LIMITATIONS:

1. Refer to applicable Building Code required ventilation.
2. Ridge Vent shall comply with applicable Building Code.
3. Ridge Vent shall not be installed on roof mean heights greater than 33 feet.
